The organization provides a significant focus on working with autism. The ACC is nationally recognized for the quality of service it provides and efficiency with which it operates.

The Hollard Community Development Trust

The Hollard Trust was founded by one of MMI's shareholders to support various projects in South Africa. At MMI, we are working with the Trust to raise funds to provide food, shelter, education, health care and security to orphaned children whose parents died of HIV/AIDS. HIV/AIDS is having a widespread, devastating effect on many segments of the South African population and has orphaned thousands of children throughout the country. One of the Trust's values, which we whole-heartedly support, is Live Ubuntu, which is a Zulu expression for "we all live and prosper together".
